

SECURITY THRU SURVEILLANCE

FREE Surveillance

Camera Training Program

As part of the Elgin Police Department's Security through Surveillance (STS) initiative, the Technical Investigations Unit cordially invites you to a free specialized three-hour training program for home and business owners who would like to learn how to implement surveillance cameras and more effectively utilize their current surveillance camera systems in order to help prevent and solve crimes.

Topics covered will include:

- Camera selection and camera placement
- Footage storage options
- Basic functions and costs of surveillance systems
- How investigators use surveillance footage to assist in their investigation

When: Saturday November 16th 2019
9am – 12pm

Where: Elgin Police Department
151 Douglas Ave. Elgin, IL 60120

If you are interested in attending this training program, voluntarily registering your current surveillance cameras with the police department, or learning more about Security Thru Surveillance, please contact the Technical Investigations Unit:

EMAIL: STS@cityofelgin.org

Security through Surveillance (STS) is an initiative in which the police department partners with businesses and homeowners to prevent and solve crime through the use of surveillance technology. When a crime occurs, a resident or business may unknowingly record the crime, possible suspects, or an escape route the criminals used. If private surveillance cameras are not registered, the information captured is often lost to law enforcement personnel. Law enforcement personnel will not have live access to surveillance cameras rather they will be aware of where cameras are located in the event footage is needed for an investigation.
